### **FALLMANN NAMED PRESIDENT AND CEO OF CONSOLIDATED CONTAINER COMPANY**

#### **Former Georgia-Pacific Executive Brings Strong Packaging Experience**

ATLANTA, GA – April 14, 2014 - Consolidated Container Company, a leading developer and manufacturer of rigid plastic packaging solutions in North America, today announced the appointment of Sean Fallmann, a seasoned packaging executive, as the company's President and Chief Executive Officer. He will assume his responsibilities on April 28, 2014. Fallmann most recently was President of Georgia-Pacific's \$5 billion North American consumer business.

Consolidated Container Company specializes in customized mid- and short-run packaging solutions serving a diverse customer base in the dairy, water, beverage, food, household chemical, automotive, and industrial chemical markets. With 56 manufacturing facilities and 2,200 employees, Consolidated Container has an integrated network of manufacturing and service locations to deliver reliable and cost-effective packaging solutions that meet the needs of a wide range of customers and markets.

Fallmann, age 46, brings a wealth of experience in general management, sales, and marketing in the packaging and consumer products businesses to Consolidated Container. He has served in various executive roles at Georgia-Pacific over the past 18 years, including as President of its Dixie® business. Fallmann began his career in positions of increasing responsibility during a six-year tenure at Kraft Foods. He earned his undergraduate degree from West Connecticut State University and received his MBA from Fordham University.

Earlier this year, the company's current CEO, Jeffrey Greene, announced his intention to resign from his position after a twelve-year career at Consolidated Container, the last eight of which he served as President and CEO. Since the announcement, Greene played an active role in the search for his successor while focusing on key initiatives.

"Sean's focus over the past 25 years has been on driving growth, strategic selling, innovation and brand management, which aligns well with Consolidated Container's growth objectives. We are confident he will lead Consolidated Container to another level," said Seth Meisel, a member of the Board of Directors and a Managing Director at Bain Capital, which acquired the business in 2012. "We would also like to express our gratitude to Jeff Greene for his leadership over many years and the significant role he has played in putting in place a number of the key elements Consolidated Container needs to achieve its future goals."

"I am excited to join Consolidated Container and employ my skills and experience to help the company seize the many growth opportunities that lie ahead," said Fallmann. "I look forward to working alongside Consolidated Container employees, management team and our suppliers to deliver high quality packaging and services that help our customers grow their businesses."
